ST. LOUIS (A) — Missouri voters stood in line today to get the early balloting off to a record start. It was the heaviest vote in history at many places.

Clear skies and a warming sun made it an ideal election day.

Crisp morning temperatures were expected to climb to the 60's and 70's by afternoon.

expected to climb 70's by afternoon.

lots also was reported at several places. More than 1,800 were expected in Jasper County, compared with 228 four years ago. In Cole County 1,112 absence ballots had been returned last night, almost twice as many as in 1948.

The warden also disclosed between 600 and 800 penitentiary inmates—the less violent type—will be moved to Camp Perry, on the shores of Lake Erie.

Their evacuation will make it possible for at least part of the rioting prisoners to be moved, if

an hour and 40 minutes to vote.

Greene County election officials said there seemed to be very little "scratching." Most of the voters were reported to be voting straight tickets. A total Greene County vote between 45,000 and 50,000 was predicted, compared with 39,664 in 1948.

Alvis would not say how or when the prisoners would be moved. National Guardsmen were expected to do guard duty over them at Camp Perry.

The warden said he had not talked to the rioters since Sunday. He would not say if he intended to try to talk to them.

The voters, hammered by millions of words in the heated campaign, responded by getting to the polls early. In St. Louis, where the big vote is often pivotal in Missouri elections, 112,000 persons had voted by mid-morning—about 27 per cent of the registration. It was an unusually big morning vote. In Kansas City an estimated 4,-000 votes were cast in the first three hours — an unprecedented number. The early voting there was at the rate of one a minute. St. Louis County had a .nid-morning total of around 51,000, or about 23 per cent of the registration. Outstate the story was the same. The boy, about 11 years old, had intended to take a birthday card to a little girl but somehow he forgot it and so his mama addressed it, put a stamp on it and told him to mail it.

Starting out to mail it he decided that it would be nicer to take it to her. Knowing about where she lives, but not exactly, he started out. But as he rode around he realized that he didn't really know where she lived at all. He had stopped in the neighborhood where he thought she lived and inquired, but nobody knew her — so — he just rode and rode around — and when he had just about given up and thought he would go on back home and see what the address was. He suddenly remembered that his mama had told him she addressed the card to mail. He looked at the card and there was the address right on the card and all the time he had been riding around carrying the card and trying to find out it went. - H. L.

The first medical book published west of the Mississippi was by Dr. John Sappington in 1844. The first free tax supported library was at Hannibal and the first steamboat in Missouri was in 1817. The people were so curious, he said, that the captain on the steamboat charged \$1 apiece for people to go aboard.

The first plastic surgery performed in Missouri was by a Saline County doctor who made a new nose for his patient, and the name "Calamity Jane" came because she was always there when there was a calamity.

Talking before a woman's froup, Mr. Shoemaker told of some of the women who made at the steamboat in Missouri was at the town of Oregon in 1872. Workhouse Clinic Is Unique In Rehabilitating Alcoholics

By CLIFF MILLER

NEA Staff Correspondent CLEVELAND - This Fall marks the first anniversary of a civic effort to rehabilitate chronic alcoholics that is unique in the landthe Alcoholic Clinic of Warrensville Workhouse in Cleveland.

Only such clinic ever estab ished as part of a correctional institution, its first year of operation has been watched with keen interest by welfare departments throughout the U.S. and 'Results are quite encouraging,' says Gilbert Serafini, assistant superintendent.

Dr. Joseph Duffy, of the Western Reserve University faculty, agrees with Serafini. Dr. Duffy is the clinic psychiatrist who tries to guide the chronic drunks and Skid Row bums along the tortuous road back to clean living, clear thinking and ambition to "go

Once again the Central Missouri Conference race has been put in the scramble and its so mixed up now the only likely outcome is not a championship at all, but a three-way tie for the title.

Three top teams — Jefferson City, MMA and Columbia—are ex-

pected to wind up the season with 4-1 records and a share in the crown. It would take a couple of upsets to make it different, and even with only one upset the af-fair would still end in a two way

Last week Jefferson City put the race in a muddle by ignoring the odds and unsetting the Colonels of Missouri Military Academy
—who had beaten the Columbia
Kewpies—who had defeated the same Jeff City Jays. That, with the fact the three leaders all have been having fun at the expense of the other three teams in the league, gives them all the gravyand in equal amounts.

Now all the games that are left are by these leaders against the teams that have proved inept at winning in the conference. This week MMA comes to Sedalia and Columbia goes to Kemper. Those two fracuses will wind up the Sports Roundup---

Against Sedalia, MMA must be

clude University City vs. Jefferson City Saturday, and Hannibal vs. Palmyra the following week.

He made a last great appeal last night for a mandate from the American people to take his "crusade" into the White House. Peace, he said is "the dearest measure in the sight of free men," and he placed it at the head of his objectives if he is elected.

This was his last major campaign speech.

Eisenhower went through a work horse schedule on the last day.

He motorcaded through the suburbs of Boston in the morning then rehearsed two hours for his television show, appeared on a program boosting Rep. Christian Herter's campaign for election as governor of Massachusetts, delivered a major speech in the Boston Garden Auditorium and finally appeared on a television show from 11 until midnight.

HIT BY INFLATION-A prime example of how inflation gives

the taxpayers less for their money is symbolized by the SS Old

Dominion Mariner, above. It is one of a fleet of "Mariner" ships

being built for the government to replace the old Liberty and

Victory ships of World War II. In 1950 Congress appropriated \$350,000,000 to provide 50 such ships at \$7,000,000 apiece. But

today-two inflation years later-the average contract price for

the first 25 Mariner ships is \$8,500,000 and the cost per ship will have risen to nearly \$10,000,000 apiece before the last one is com-

pleted in 1954. So the U.S. will get only 35 Mariners instead

The duchess seldom comes with him but she is known to be taking a keen interest in the plans for furnishing the house when that stage is reached.

Hatless and with a pipe in his mouth, the duke plods around the piles of planks and mounds of upturned earth in the mill grounds. From time to time he steps in to give orders in French to the masons and the gardeners. When help is needed, he is ready to lend a hand himself. Two dogs keep close to his heels.

The duke has rented the old watermill and the pink-tiled house which stands besides it from Fren painter Adrien Drian. He is having extensive alterations made to its half-dozen rooms. Changes are be ing made in the studio-windowed salon and library. Modern bath rooms are being installed. Central heating will add warmth to log fires in the outsize chimney places. Every fine day he drives out 25 miles from Paris in his green and brown Buick station wagon to work on the 200-year-old millhouse which he is converting into a weekend hideout for himself and the duchess when in France.

Constitutional **Amendments** In Many States

WASHINGTON (#) — Proposals ranging from repeal of the requirement for free public schools in South Carolina to prohibition of Daylight Saving Time in Washington and Oregon came before the

Scores of proposed constitutional amendments, initiative propositions and referenda were on the ballots in 35 states. Many of them, however, involved purely local issues. South Carolina voters were

called on to say whether they want to provide a legal escape hatch in case the United States Supreme Court outlaws racially segregated

A proposed amendment would elete from the State Constitution a section requiring the state to provide free public schools for all children, 6 through 21. The Constitution and state laws say the schools must be segregated.

The Supreme Court has sched-

uled arguments Dec. 8 on a case from Calrendon County, S.C., chal-lenging constitutionality of segre-

gated schools.

If segregation is ruled out, and the amendment adopted, it would be up to the General Assembly to decide what to do about schools. Gov. James F. Byrnes has said the state would reluctantly abandon them if they cannot be continued separately for Whites and

Among suggestions advanced were church operation of the schools, or operation by private foundations. The state could continue to put up the money, through scholarships or payments to par-

the gasoline tax and motor vehicle license fees.

Missouri: Limit Legislature sessions to five months.

Montana: Boost, gasoline tax from 6 to 7 cents a gallon.

Nevada: Prohibit labor union contracts which make union membership a condition of employment.

Demos Cling To Advantage For Congress

WASHINGTON (AP)-The Democrats carried a numerical advan-tage into the showdown battle with the Republicans today for control of the next Congress.

Victory predictions came from both sides as the voters began making their choices after listenng to weeks of campaign oratory.

The outcome was bound to be influenced by the presidential race and, conversely, to have an important bearing on the success of the next president's administration.

At stake in today's balloting are 34 of the 96 Senate seats and 432 of the 435 House seats. Maine elected a Republican senator and three GOP House members on

The House, where the Democrats now outnumber the Republicans 230 to 200, has rarely run counter to the presidential tide. Capitol authorities said that only twice—in 1848 and 1876—has an incoming president been faced by a House controlled by another party.

The Senate presents a different picture. Numerous Republican sen ators conceded privately that it probably would take an Eisenhower landslide for them to capture the Senate.

The Democrats now hold 49 Senate seats-the bare minimum nec essary for control. But only 14 of their seats are on the block and five of these are in the Democratic first test of voter reaction to their

TRADE NOW FOR THE DEAL OF THE YEAR ON A FUTURE-STYLED MERCURY

THINK of it this way. The car you are now I driving will never be worth more money than it is right now. In a few short weeks it could be a year older by trade-in standards.

That's why it's more important than ever that you trade for a Mercury. For this is the one car in it's class that eliminates the worry of buying a new car that may soon look out of date. Mercury's forerunner styling is designed to anticipate the future . . . is planned to stay years ahead of the calendar. .

And don't forget Mercury's unequalled record for economy. On the official ton-mile basis-with optional overdrive-it's twice been Sweepstakes winner of the Mobilgas Economy Run. Pound for pound Mercury is the most economical car in America today. And that means the best balance you can buy of comfort plus power, beauty plus economy.

So let's talk figures. We honestly believe we can map out a deal that will open your eyes ... make you glad you didn't wait any longer. EYE AND TRY THE YEARS-AHEAD ECONOMY CAR
